

Trends Colour AW 11/12 (Lengpeng version)

Contributed by admin
Friday, 05 February 2010

For Autumn/winter 2011/12, mudpie introduces three brand new trends; Synergy, primal and innovate. Each trend is further split into three transitional phases. here, we present innovate, with phase 1, Spectrum, for late summer/early autumn collections; phase 2, Nuture, for autumn and mid-winter collections; and finally phase 3, Quantum, for seasonal, high-winter collections. innovate works with a pallete of three adaptable, neutral base tones with a further six highlight colours, for each of the three phases that accompany the trend.

Phase One

SPECTRUM

Phase Two

NURTURE

Phase Three

QUANTUM
